

Embrace Connection

Tango Workshop for Music & Arts Festivals

by Diego Sanlor

THE FACILITATOR

Diego Sanlor's passion bridges the worlds of tango and music festivals. His unique journey began in 2012, the year he moved to Berlin and discovered tango, sparking a profound connection that has shaped his life ever since. This new chapter marked the start of a deep and ongoing relationship with the dance.

His love for dancing naturally led him to teaching, by offering tango workshops at various electronic music festivals and events since 2017.

Diego incorporates elements from other dance forms, such as contact improvisation and blues. By taking a holistic approach focused on connection, consent, and expression, his workshops become more engaging and relatable for festival audiences.
